Important Information

This sheet is extracted from the model used by the Brooks Macdonald Asset Management investment team managing the SVS Cornelian Funds for illustrative purposes only. Due to marketplace movements and other factors, the actual holdings may vary from the figures provided in the table. This list is dated as shown above and may have changed since then. The inclusion of any stock, fund or other holding should not be considered as a recommendation from Brooks Macdonald Asset Management Limited and should not be regarded as investment advice. Net distributions received by investors will be lower than the weighted average portfolio yield due to the deduction of tax and other expenses. The weighted average portfolio yield figure is calculated using underlying historic yield figures as reported at each month end. These yield figures are subject to change - they do not reflect a guarantee of future income, and therefore the weighted average portfolio yield figure should not be interpreted as such.

All data provided by Brooks Macdonald Asset Management Limited accessed as at 31.01.2025 unless otherwise stated. Investment markets and conditions can change rapidly and as such the views expressed should not be taken as statements of fact, nor should reliance be placed on these views when making investment decisions. The price of your investments and the income from them can go down as well as up and neither is guaranteed. Investors may not be back the amount invested. Past performance is not a reliable indicator of future results. Changes in rates of exchange may have an adverse effect on the value, price or income of an investment. The value of your investment may be impacted if the issuers of underlying fixed interest holdings default, or market perception of their credit risk changes. There are additional risks associated with investments in emerging or developing markets. This document is for information purposes only and should not be reproduced, copied or made available to others. It should neither be construed as a solicitation or an offer to purchase or sell investments or related financial instruments nor does it constitute advice or a recommendation and you should not make any investment decisions on the basis of it. This document has no regard for the specific investment objectives, financial situation or needs of any person or specific entity and contains only brief information on the fund. If you do not understand any part of the document or you require guidance please contact your professional adviser.
